## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5, 6, 8 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by West et al '716 and '779.

Both West et al patents disclose a self-drilling anchor 300 that includes a body with a flange and a drill tip on the front end wherein the body includes a first leg with a drill tip and a shoulder (at the gap 330) and a second leg that extends from the flange to the shoulder (see the Figure 9 embodiment in both patents). The anchors include a bore that receives a screw and insertion of the screw causes the legs to pivot apart and set the anchor.

### ***Allowable Subject Matter***

Claims 4 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 10 is allowed.

### **Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The reference to Wallace discloses a related self-drilling anchor and is cited to further show the state of the art.
